RE: Equipment Abandonment in Coal Lease UTU-67939 of the North Lease area, Canyon Fuel Company, LLC, Skyline Mine, C/007/005,

Dear Mr. Haddock:

Skyline Mine is currently mining in the 2 Left longwall panel on the subject lease. As outlined in detail in correspondence dated March 13, 2008 and April 4, 2008, (located in the DOGM Incoming File) Skyline Mine is requesting permission to leave 148 Gullick-Dobson shields in place when mining of the 2 Left section is complete. All other equipment associated with the longwall will be recovered.

Section 2.5.2 - Hydrological Impacts of Mining located in the currently M&RP addresses the abandonment of equipment. Per discussions with Ms. Dana Dean, Section 2.5.2 has been modified to reference metallurgical studies cited by the BLM, and provide a discussion outlining the insignificance of abandoning steel underground. Also, Plate 2.5.2-1 - Abandoned Mining Equipment Locations (formerly mis-labelled as 2.3.6-3) has been modified to include the equipment currently proposed for abandonment. A copy of the map will also be included in the 2008 Annual report.

Please find enclosed with this letter, modifications to the M&RP which include: 1) Page 2-51c and 2-51d of Section 2.5 of the M&RP citing the BLM reference, the discussion of abandoning steel underground, and renaming the Abandoned Mining Equipment Locations plate; and 2) Plate 2.5.2-1 Abandoned Mining Equipment Locations (formerly Plate 2.3.6-3).

The submittal includes completed C1 and C2 forms, five (5) copies of both clean and redline versions of the text modifications, 5 copies of Plate 2.5.2-1, and two Compact Discs (CDs) of the information.

Your prompt consideration of this request would be appreciated. If you have any questions, please call me at (435) 448-2636.

Sincerely,

Gregg A. Galecki
